Dalat International School was founded in Da Lat, Vietnam in 1929 as a private, Christian boarding school to provide a North American education for children of missionaries in Indo-China. In June 1971, Dalat School moved to its present location in Penang, Malaysia. In July 1999, the school became an independent school and retained its name, and became an educational trust with an elected, policy governance school board.

All classes, except foreign language, are taught in English. The school provides EAL support through grade 8 and limited learning support as needed. The campus hosts the Distance Learning Resource Center which provides families with resources for home-schooling and distance education.
Dalat encourages students to comprehensively research global institutions to find a maximum of 10 “best fit” choices to which they may apply. As a school receiving an application from a Dalat student, please know that this submission represents a genuine desire by that student to study at your school.
